

PSM JUNE 2010 NEWSLETTER

PSM MEMBERS 1ST OUTING - ENDAU ROMPIN

The Society's 1st outing for members attracted some 24 members with another 7 from Singapore, making it a total of 31 members who participated in this Nature Outing. This outing was a 3D/2N affair, where members were exposed to the wonders of nature in one of the few remaining lowland forest of Malaysia.

The journey began on 30-4-2010, whereby upon reaching Kahang from Kuala Lumpur, members were transported to the resort via longboats for checking in. Thereafter, a photo shooting session which lasted till the evening were organized.

On the 2nd day on 1-5-2010, wake up call was at 7.00 am, followed by a hearty breakfast. The journey then began via a boat ride that took about 45 minutes from the resort to Kuala Jasin. From there, the journey was tough, going through narrow paths in the forest to Upeh Galing and Tasik Air Biru for some great photo shooting session. The to and fro journey took up a total of 7 to 8 hours.

On the final day, the destination was to the famed Fan Palm Forest, a forest of tall fan palm trees, where members were transported back to the time of the Dinosaurs, surrounded by huge and tall palm trees, aging from 60 - 70 years, an awe inspiring moment for members. The Fan Palm Forest is situated 1420 feet (427 meters) above sea level, the path there inundated with slopes from 40 - 80 degrees, a challenge not many members were able to partake, as only 12 members remained to take the challenge ahead, but the results were well worth the effort, in terms of photography and in terms of being one with nature.

The Society and all its members would like to express our sincere gratitude and appreciation to Canon Marketing (M) Sdn Bhd, for sponsoring this outing which came out to RM 8000, and also for organizing a very informative talk on Canon products from Mr. Teoh Peng Kee.
